### Paying for Treatment

If you are not eligible for NHS funding and are undergoing treatment as a Private Patient you will be expected to pay when you attend for your Nurse Consultation appointment. Payment for DI or HIUI will be expected on the day of insemination. Please note payments by credit card are subject to an additional fee of 2% to cover imposed bank administration fees.

### Cancellation of Treatment

Refunds will be made for cycles abandoned before egg collection, insemination or thawing of embryos. The amount of refund will be determined by the stage of treatment reached. There will be no refund after egg collection or embryo thaw.

### Cost of Medication

NHS funded patients your drugs will be delivered by Health Care at Home you will incur no charges for this medication. If you require additional medication from Leeds Fertility you will need to pay the current prescription charge for each item unless you are exempt from these charges.

Private Patients will receive their medication from Stork. The price will range from approximately £700-£2000 depending on the dosage and medication prescribed. The medication will be delivered by Stork to your address. You will incur further charges for medication should any more be prescribed within the treatment process.

Pharmacy cannot take responsibility for storage of medication once it has left their premises; therefore pharmacy is unable to refund any charges or to accept return of unused drugs.
